

www.smartvuhome.co.nz

Please read this Quick Start Guide carefully before using, and keep it for future reference.

1. Download the SmartVU Home App

If you haven't already, download and register an account on the free SmartVU Home app.

It is available on both iOS and Android.

Simply search "SmartVU Home" or you can scan the QR Code below.

Launch the SmartVU Home app from your phone or tablet and select the Register button.

Follow the app's on-screen instructions.

2. Connection Preparation

The Doorbell Camera supports TWO main pairing modes, QR Code and AP Mode.

QR Code:

Once the Doorbell Camera is powered ON, to enter pairing mode, press and hold the **RESET** button for 5 seconds. The indicator on the Doorbell Camera will flash RED, once every two seconds.

Follow the app's on-screen instructions. Hold the QR Code that appears/displays on the SmartVU Home app 15-20cm from the Doorbell Camera lens.

AP Mode:

Once the Doorbell Camera is powered ON, to enter pairing mode, press and hold the **RESET** button for 5 seconds. The indicator on the Doorbell Camera will flash RED, once every two seconds.

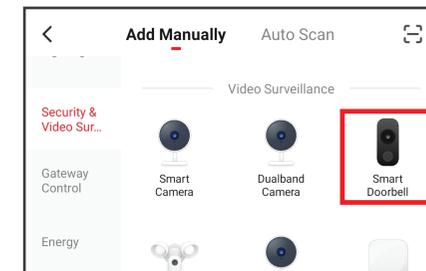

When you hear the "Waiting for the Configuration" prompt, press the **RESET** button once more. The Doorbell Camera should now state "AP Mode - Waiting for the Configuration".

Select AP Mode in the SmartVU Home app, the app should prompt you to connect to the Doorbell Cameras "SmartLife" hotspot. The Doorbell Camera will obtain the configuration information to connect.

3. Add Device - QR Code

Once the Doorbell Camera is in pairing mode, select **Add Device** or **+** in the SmartVU Home app.

Select **Security & Video Surveillance > Smart Doorbell**.

Follow the app's on-screen instructions.

By default the SmartVU Home app will attempt pairing by **QR Code**.

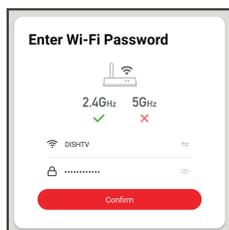

Confirm the Doorbell Cameras indicator is flashing RED, then select **NEXT** to proceed.

NOTE: See previous page for steps to RESET the Doorbell Camera.

3. Add Device - QR Code

Once you've confirmed the Doorbell Camera is flashing RED, you'll be prompted to enter the Wi-Fi Password.

NOTE: Make sure your phone or tablet is connected with your Wireless Router. Please note this Doorbell Camera will only connect to 2.4GHz Wi-Fi, not 5GHz Wi-Fi.

Hold the **QR Code** that appears/displays on your phone or tablet approx. 15-20cm from the Doorbell Camera lens.

Click **I Heard a Prompt** when you hear an audible prompt from the Doorbell Camera.

The SmartVU Home app will now scan and connect with the Doorbell Camera, **Device Added Successfully**.

NOTE: If you wish to enable Local Recording, please insert a Micro SD card (up to 32GB) gently into the slot, inside the Battery Compartment.

4. Control Device

Once the Doorbell Camera has been added successfully, you can open the preview and control options.

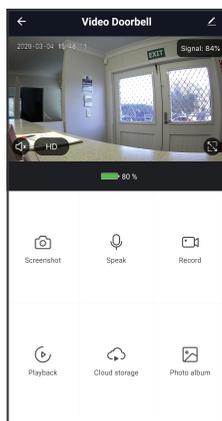

Fig-1

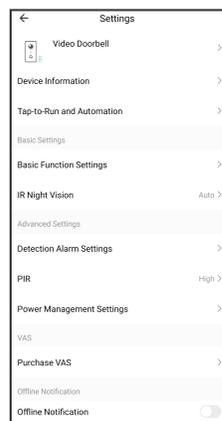

Fig-2

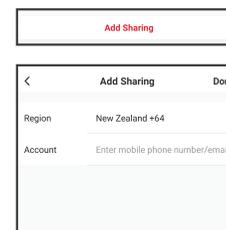

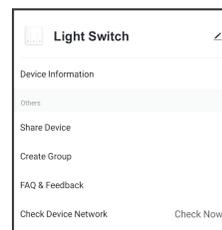

For example, Fig-1 shows the Preview Window for the Doorbell Camera, with the Screenshot, Speak, Record, etc... options available.

Fig-2 shows the Settings, select **Edit** to rename the Doorbell Camera, check Device Information, Share the Device, etc...

5. Share Device

Once the Doorbell Camera has been added successfully, you can share control of the Doorbell Camera, if another resident in your home has an account.

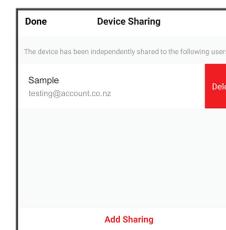

Select **Edit** in the top-right, then **Share Device**. When prompted select **Add Sharing**.

Ensure the correct Region is selected, and enter the Mobile Number/Email you want to share control with.

NOTE: If you want to stop sharing with a user, swipe LEFT on the user's name, and press **DELETE**.

You'll then be prompted to **CONFIRM**.

6. Troubleshooting

For more information, visit www.smartvuhome.co.nz

Unable to pair the Doorbell Camera with the App.

Option 1: Ensure your phone or tablet is connected to a 2.4GHz Wi-Fi Network.

Option 2: Check the Doorbell Camera is in pairing mode, the indicator should be flashing RED.

Option 3: Check the Internet connection on your Wi-Fi Network.

Option 4: Ensure the Wi-Fi Password entered is correct, and it's the same Wi-Fi Network as your phone or tablet.

Option 5: Ensure the Doorbell Camera is not positioned too far from your Router. Place the Doorbell Camera and your phone or tablet approx. 30-100 cm from the Router during setup.

7. Specification

- Power Source: 2x 18650 Li-Ion (3200mAh) Batteries
- Power: Recharge Batteries via Micro USB cable, DC 5V
- Supported Power: Wired 14-24V AC (not included)
- Wi-Fi: 2.4GHz (802.11 b/g/n)
